

# Platform solutions

We have developed a complete and technologically advanced platform, which allows 360-degree management of the online business, from real-time accounting to multi-feed sports offers, from poker to casino, bingo, and lotteries.

## PLATFORM

The platform is completely flexible and access can be customized by role and/or function.

Our certifying body accredited by AAMS: Itech Labs

Gaming products certified and tested by AAMS:

- PSQF (Fixed Odds Sports Betting)
- PSR (sports and horse racing betting)
- PSIP (horse racing betting to the accumulator)
- PCP (sports prediction contests)
- PSV (virtual bets)
- PACG (gaming accounts protocol)
- PGDA (poker, casino, skill protocol)

Main features of the platform:

- Real-time system at all levels
- High safety standards
- High performance
- Infrastructure flexibility and scalability
- Multi-device service (Self-service, Web, IOS, Android, native apps)

## BUSINESS SOLUTIONS

The **STANDARD** Platform, for managing your own simple but complete game structure for business start-ups.

The **PREMIUM** Platform, for the competitive management of one's gaming structure, with continuous innovations proposed to anticipate market trends and with advanced and continuously updated modules to support the customer's business strategy.
